EXHIBIT C 9-20-22

I DONALD JOHNSON #1596526, hereby bring this notification to your department, informing you that due to lack of cooperation of the Coffield Units Grievance office I must proceed to step 2 procedures without the original copy of step 1 # 2022117609. This said grievance was never returned to me. On 8/02/2022 D. Roden, UIC III sent me a notice of 40 day extension for said grievance. 40 days expired 9.12.22. On 9.9.22 I was put on special chain to the Michael unit in the early afternoon hours. While here on Michael unit I have had much trouble receiving materials I need to proceed with Due process of Law. I just last night finally was fortunate to have an officer bring me a step 2 form. Yet it has been 7 days time to allow my mail to catch up to me from just across the street and still no step 1. To be honest I seriously believe that, because of all the manipulation tactics I have unveiled being exercised against me as a means of retaliation, Coffield and Michael Unit could possibly be working together to hinder my progress in this pursuit of relief entitled to me in regards to this meritorious issue I have brought forth that occurred on 6.16.22, Location Coffield Unit, Turing, cell 415 at approx. 8:20 a.m. An event that has truly left me traumatized for life. My 8th amendment Constitutional right clearly established and protected under title 18 § 241 242 of the United States Constitution.

An assault and battery clearly captured on security camera footage from posted camera in front of cell 415 of said wing and ~~at~~ also captured on use of force video.

Evidence has been destroyed Im sure. I hope you get this.

respectfully Submitted Donald Johnson
